

# Crematoria Price Information\*

We pride ourselves on offering an extensive range of choices by accessing all Crematoria across the conurbation. However, we must bring to your attention that Harbour View Crematorium, operated by Tapper Funeral Service, restrictively provides access solely to clients of Tapper Funeral Service. We believe this closed practice denies bereaved families the fair opportunity to consider all available options.

Below, you will find a table that outlines the charges set out by the BCP Council for Poole Crematorium & Bournemouth Crematorium (East & West Chapel). These charges vary based on the timing and duration of the service. Incorporated within this fee is the use of the Obitus music system, along with a standard image bearing the name of the deceased showcased on screen. For further offerings such as livestreaming, visual tributes, or recordings, please liaise directly with your funeral director regarding supplementary costs.

It is important to note that prices are subject to change and we advise that you check with your funeral director for up-to-date pricing information. Additionally, we understand that the cost of a cremation service can be a burden on families during an already difficult time. For this reason, we offer a range of payment options to suit your needs, including instalment plans and pre-payment plans. Our team is also available to provide any assistance you may need in accessing financial support. We strive to make this process as simple and stress-free as possible for our clients.
